The major general commanding advises the collec-tion and destruction of these badges. ELECT MAYOR ON TUESDAY

Captain McCarthy Has Two Opponents and Democrats Urged to Vote.

WILL WIN FIGHT, THOUGH

All Cities Elect Mayors and Council-But Few Contests.

Amid the confusion and rush of b ness and other political matters, a great many persons seem to have overlooked the mayors and councils of all the cities of the State will be elected, the new Constitution providing that they shall be chosen on the second Tuesday in June, and take office on the first day of the following September. Not only is this interest on the subject, there is some four that Captain Carlton McCarthy, the Democratic nomines for Mayor of this city, may fall of election. Of course, when the attention of the voters is called to the fact that Captain McCarthy has two opponents, one independent Democrat and one Socialist, the Democratic party will rally to his support and pull him

Mr. Doherty's Appeal.

In order that all may know the importance of casting their ballots, Chairman, J. B. Doherty, of the City Democratic Committee, yesterday issued the follow-

ing stirring appeal: To the Democratic Voters of Richmond:

ing stirring appeal:
To the Democratic Voters of Richmond:
Your attention is directed to the fact
that the municipal election will take
place next Tuesday, June lith, and it is
the wish of the Democratic Committee
that a full vete be polled.

The Democrats of Richmond gave expression to their choice for Mayer, and
in the various wards nominations were
made for the City Council. The primary
simply expressed whom the Democrats
of Richmond preferred to conduct the
municipal atrafts of our city, and the
will of the people must be registered at
the regular election next Tuesday.
Therefore, in order to have the choice
of the majority of the citizens of Richmond carried out as to who shall be
entrusted with the reins of municipal government, it is essential that the voters
participate in the regular election.

There is known opposition to the Democratic candidate for Mayor, and it would
be lamentable for the Democratic partly
to lose a single office through the carelessness of its adherents in failing to
vote. Be not content with voling in the
primary, but make the election of our
ticket certain by participating in the
regular election, and thereby absolutely
insure the selection of the men endorse-

election, and thereby absolu regular election, and thereby absolutely insure the selection of the men endorse.

Respectfully, JAMES B. DOHERTY,

Two Opponents.

"Parson" W. E. Talley, who has filed his notice according to law with the cierk of the Hustings Court, is an erstwhile Republican, but recently "kicked out of the traces," and in the present race is an "independent" candidate.

his party has something of an organization here, which will insure the casting of all their votes, though at best they will be but few. Still, if Domocrats remain away from the polis the election may go by default, and for this reason Chairman Doherty urges upon all the importance of casting their ballots.

The party workers will doubtless take a hand and will see that a fair vote is poiled, though at best it cannot be expected that it will be at all heavy. The new constitutional provisions are partly responsible for the lack of interest on the part of the voters. This will be the first election of Mayor and councilmen ever held in June, they having been chosen heretofore on the fourth Thursday in May.

Mayor and Council.

The only elections which will occur on

Mayor and Council.

The only elections which will occur on Tuesday will be in the cities of the State, and only mayors, aidermen and councilinen will be chosen.

None of the Democratic candidates for the Board and Council in this city will have opposition, and but for the fact that Captain McCarthy will be opposed for Mayor there would be no real necessity for interest in the contest here. All the cities will choose mayors, half of their aidermen and all the members of the lower branch of the Councils.

In some of them, notably Bristol and Winchester, there may be opposition, but for the most part all the Democratic tickets will be elected. Other city officers than those to be chosen Tuesday will be elected on Tuesday after the first Monday in November of next year, and they will take office on the first day of January, 1906. It is important that the Democrats of Richmond turn out and vote for Captalin McCarthy for Mayor.

WATER NOT POLLUTED.

Justice John so declares and discharges Mr. Winston.

Justice John so declares and discharges Mr. Winston.

According to the preponderance of evidence before Justice Crutchfield yesterday, and in accordance with his Judgment, the water of the city has not been polluted, and the case against Mr. E. G. Winston, of the construction company now bulluing the sottling basin, was dismissed.

The evidence adduced before the court was, practically, the same presented in the preliminary hearing. Mr. Winston was present, but he did not go on the stand. He was represented by Mr. C. V. Meredith, who stated that the company was as anxious and as careful as any one to prevent pollution, and that every one at the camp was anxious to assist in maintaining a standard of care and cleanliness.

Dr. Newton related the same story of his visits to the camp and his observation, from which he was of the opinion that the condition of things was a menace to the purity of the water.

Mr. E. A. Catlin followed along the same line. He said he had directed that all city water used at his home for cooking purposes be boiled, and had taken to mineral water for drinking.

Mr. E. T. D. Myers, Jr., observed the camp's condition. He was not impressed with the idea of danger.

Drs. Oppenhimer, Hoge and Garcin, of the Board of Health, had visited the camp at the request of Superintendent Holling. They each thought that if the regulations drawn by the beard for the conduct of the camp were faithfully carried out, the danger of pollution would be eliminated.

Dr. N. K. Sims, the camp physician, said the health of the men had been unusually good. He never had thought there was any danger to the water, but he believed all precautions should be taken.
